WORK EXPERIENCE

RapidRinse   March 2021 - May 2021
Product Designer

Designed the web app and website. Being the solo designer, worked
together closely with the founders and developers to deliver a
seamless and intuitive experience.

NexStem   February 2021 - March 2021
UI/UX Design Intern

Collaborating with the CEO, investors and web development team for
making the user interface for website and NexStem shop. NexStem
shop was a success with us recording more pre-orders than expected.

Photostat App   October 2020 – December 2020
UI/UX Design intern

The Photostat app was primarily redesigned to focus more on its
fundamental features – scanning and storing documents. Overall user
retention was improved along with many positive reviews on playstore.

Dyne Health and Fitness   January 2020 - March 2020
User experience Designer

Complete redesign of the existing user interface including the revamp
of onboarding along with user journey which led to more user retention
and more than two times the downloads on first day of release.

Freelance projects   January 2020 - April 2021
Contract basis

Worked with multiple start-ups to design their app and website.
Worked with design agencies as a core team member for foreign
clients. Designed design systems for web-apps, modern graphics,
layouts, social media posts.
